

LIFE. YOUR WAY.
Department on
Disability Services

In support of the Tech First Initiative, a series of webinars will be coordinated to increase awareness of stakeholders of the tech solutions that are being used to promote the independence of people with disabilities. The Webinars will also serve to further stakeholders knowledge with planning and implementing technology.

3/19/21 | 12-1p | Data Sets for Assistive Technology Goals

This session will give insight on how to write comprehensive and achievable supports to ensure the person is successful with their devices.

3/25/21 | 12-1p | Community Living Tech

Ablelink and NextGenAT describe their transportation and remote supports technologies.

4/8/21 | 12-1p | Remote Supports Part 1

An introduction to remote support options, common use cases, benefits, risks, etc.

4/9/21 | 12-1p | Remote Supports Part 2

Quickly learn how to 1) evaluate Remote Support options available, 2) prepare goals before you dive in, 3) plan successful implementation, and 4) prepare for ongoing oversight post implementation.

4/14/21 | 10-11:30a | Create Your Own Tech Solutions

The TEC lab in Chicago teaches how to use everyday items to create your own AT solutions.

4/29/21 | 12-1p | Health Living Tech

Three technology demos showcasing telemedicine, telehealth, and medication tech

5/27/21 | 12-1p | Safety & Security Tech

Two companies highlight how the use of sensors and GPS can help ensure safety & security

6/24/21 | 12-1p | Daily Life & Employment Tech

Task prompting apps and solutions you can customize to increase a person's autonomy with various activities of daily living.

7/29/21 | 12-1p | Tech for Advocacy & Engagement

Online tech identification system and online community to share tech best practices.

8/26/21 | 12-1p | Tech that Fosters Socialization

This session features various technologies people with disabilities can use to stay connected and expand their natural support network.
